

An Audit of Diabetes Control And Management (ADCM)

Section		HEADER						
No	Table name	Caption	Variable Name	Definition	Data type	Data_size	Lookup table	Codelist
i	PatientNotification	Date of notification	PtDateNotification	Date on which data is collected and entered in the CRF	datetime	8		
ii	PatientNotification	Name of Reporting Centre	SDPID	Name of the notifying centre	int	4		
iii	PatientNotification	Type of facility	TypeFacility		int	4	zLookup_TypeFacility	1:Hospital with specialist 2:District hospital without specialist 3:Health clinic with FMS/Resident Doctor 4:Health clinic without FMS/Resident Doctor 9999:Missing

Section		Identifier						
No	Table name	Caption	Variable Name	Definition	Data type	Data_size	Lookup table	Codelist
0	PatientNotification	Admin remark	AdminRemark	For system used only.	varchar	150		
0	PatientNotification	Patient Notification ID	PatientNotifID	Identifier. For system used only.	int	4		
0	PatientNotification	Patient ID	PatientID	Identifier. For system used only.	int	4		

Section		SECTION I: PATIENT PARTICULAR						
No	Table name	Caption	Variable Name	Definition	Data type	Data_size	Lookup table	Codelist
1	Patient	Name	PtName	Name as in any legal document	varchar	255		
2	Patient	MyKad number	IC_New	Complete MyKad number	varchar	255		
2	Patient	Old	IC_Old	Old Identity Card Number. Only Applicable if MyKad is not available	varchar	255		
2	Patient	Other ID document number	OtherIDDoc	If MyKad and Old IC number is not available, provide other identification document number such as passport, birth certificate no, etc	varchar	100		

An Audit of Diabetes Control And Management (ADCM)

2	Patient	Specify document type	OtherIDDocSpecify	Specification document type if MyKad and Old IC number is not available	int	4	zLookup_PtOtherIDDoc	1:Registration number 2:Passport 3:Birth Certificate 4:Mother's I/C 5:Father's I/C 6:Armed Force ID 7:Work Permit # 99:Others 9999:Missing
2	Patient	Other Document Type: if others, specify	OtherIDDocSpecifyText	If type of identification document is not available in list, specify type	varchar	255		
3	Patient	Gender	PtSex	Identified as either male or female (self reported).	int	4	zLookup_PtSex	1:Male; 2:Female; 9999:Missing
4	PatientNotification	Age	Age	Auto-calculated from the Date of data collection and Date of Birth	float	8		
4	Patient	Date of birth (DOB)	BirthDtc	The date of birth of the patient as stated in any legal document. If day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	smalldatetime	4		
5	Patient	Ethnic group - if Foreigner, specify	RaceForeignSpecify	Patients who are not a the citizens of Malaysia, specify the coutry of birth or origin	varchar	100		
5	Patient	Ethnic group - if Malaysian, specify	RaceOtherMsianSpecify	If Other, Malaysian, then specify	varchar	100		
5	Patient	Ethnic group	Race	The term ethnic means of or pertaining to a group of people recognized as a class on the basis of certain distinctive characteristics such as religion, language, ancestry, culture or national origin	int	4	zLookup_PtRace	1:Malay 2:Chinese 3:Indian 4:Orang Asli 5:Kadazan Dusun 6:Melanau 7:Murut 8:Bajau 9:Bidayuh 10:Iban 11:Orang Ulu 12:Mixed 13:Other Malaysian 14:Foreigner 8888:Not applicable/Unknown 9999:Missing 15:Sikh

Section SECTION 2: DIABETES TYPE

No	Table name	Caption	Variable Name	Definition	Data type	Data size	Lookup table	Codelist
----	------------	---------	---------------	------------	-----------	-----------	--------------	----------

An Audit of Diabetes Control And Management (ADCM)

1	PatientNotification	Type of Diabetes	DMType	Indicates the type of diabetes diagnosed by medical practitioner and recorded in the case notes	int	4	zLookup_DMType	1:Type 2; 2:Type 1; 99:Unknown; 8888:Others; 9999:Missing
1	PatientNotification	Type of Diabetes - if others, specify	DMTypeSpecify	Specification if types of diabetes is others	varchar	255		
2	PatientNotification	Date of diagnosis	DateDiagnosis	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8		
2	PatientNotification	Estimated / presumed year	DateDiagnosis_PresumeYr	If date of birth is not known, provision should be made to collect age (in years) and a date of birth derived from age. (if exact date is not known, please enter 30/06/yyyy)	bit	1		

Section SECTION 3: CLINICAL INFORMATION (Past one year)

No	Table name	Caption	Variable Name	Definition	Data type	Data_ size	Lookup table	Codelist
1a	PatientNotification	Height	Height	Patient's recorded height at diagnosis or current (cm)	int	8		
1a	PatientNotification	Height - Not Done	Height_ND	Height not done	bit	1		
1b	PatientNotification	Weight - Not Done	Weight_ND	Weight not done	bit	1		
1b	PatientNotification	Weight - Date of latest result	Weight_Dtc	Date of most recent weight reading in the period of one year prior to the date of data collection	datetime	8		
1b	PatientNotification	Weight	Weight	Patient's latest recorded weight in the period of one year prior to the date of data collection (kg)	float	8		
1c	PatientNotification	Waist circumference (WC) - Not Done	WC_ND	Waist circumference not done	bit	1		

An Audit of Diabetes Control And Management (ADCM)

1c	PatientNotification	Waist circumference (WC) - Date of latest result	WC_Dtc	Date of most recent WC reading in the period of one year prior to the date of data collection	datetime	8
1c	PatientNotification	Waist circumference (WC)	WC	Patient's latest recorded waist circumference in the period of one year prior to the date of data collection (cm)	float	8
1d	PatientNotification	Body mass index (BMI)	BMI	Patient's latest recorded BMI in the period of one year prior to the date of data collection (In kg/m2)	float	8
1d	PatientNotification	Body mass index (BMI) - Not Done	BMI_ND	BMI not done	bit	1
1d	PatientNotification	Body mass index (BMI) - Date of latest result	BMI_Dtc	Date of most recent BMI reading in the period of one year prior to the date of data collection	datetime	8
1e	PatientNotification	Blood pressure - Date of latest result	BP_Dtc	Date of most recent BP reading in the period of one year prior to the date of data collection	datetime	8
1e	PatientNotification	Blood pressure - systolic	BPSys	Patient's latest recorded systolic BP in the period of one year prior to the date of data collection (mmHg)	int	4
1e	PatientNotification	Blood pressure - diastolic	BPDias	Patient's latest recorded diastolic BP in the period of one year prior to the date of data collection	int	4
1e	PatientNotification	Blood pressure - Not Done	BP_ND	Blood pressure not done	bit	1
2a	PatientNotification	Random Blood Glucose (RBG)	RBG	Patient's latest recorded RBG in the period of one year prior to the date of data collection (mmol/L)	float	8
2a	PatientNotification	Random Blood Glucose (RBG) - Date of latest result	RBG_Dtc	Date of most recent RBG reading in the period of one year prior to the date of data collection	datetime	8
2a	PatientNotification	Random Blood Glucose (RBG) - Not Done	RBG_ND	Random blood glucose (RBG) not done	bit	1

An Audit of Diabetes Control And Management (ADCM)

2b	PatientNotification	Fasting Blood Glucose (FBS)	FBS	Patient's latest recorded FBS in the period of one year prior to the date of data collection (mmol/L)	float	8
2b	PatientNotification	Fasting Blood Glucose (FBS) - Not Done	FBS_ND	Fasting blood glucose (FBS) not done	bit	1
2b	PatientNotification	Fasting Blood Glucose (FBS) - Date of latest result	FBS_Dtc	Date of most recent FBS reading in the period of one year prior to the date of data collection	datetime	8
2c	PatientNotification	2 Hrs Post-Prandial - Date of latest result	PostPrandial_Dtc	Date of most recent 2 Hrs Post-Prandial reading in the period of one year prior to the date of data collection	datetime	8
2c	PatientNotification	2 Hrs Post-Prandial	PostPrandial	Patient's latest recorded 2 Hrs Post-Prandial in the period of one year prior to the date of data collection (mmol/L)	float	8
2c	PatientNotification	2 Hrs Post-Prandial - Not Done	PostPrandial_ND	2 hrs post-prandial not done	bit	1
2d	PatientNotification	HbA1c - Date of latest result	HbA1c_Dtc	Date of most recent HbA1c reading in the period of one year prior to the date of data collection	datetime	8
2d	PatientNotification	HbA1c	HbA1c	Patient's latest recorded HbA1c in the period of one year prior to the date of data collection (%)	float	8
2d	PatientNotification	HbA1c - Not Done	HbA1c_ND	HbA1c not done	bit	1
3a	PatientNotification	Total Cholesterol	TC	Patient's latest recorded Total Cholesterol in the period of one year prior to the date of data collection mmol/L	float	8
3a	PatientNotification	Total Cholesterol - Not Done	TC_ND	Lipid profile test, total cholesterol not done	bit	1
3a	PatientNotification	Total cholesterol - Date of latest result	TC_Dtc	Date of most recent HbA1c reading in the period of one year prior to the date of data collection	datetime	8

An Audit of Diabetes Control And Management (ADCM)

3b	PatientNotification	Triglyceride - Date of latest result	TG_Dtc	Date of most recent cholesterol (regardless of total cholesterol or its fractions) reading in the period of one year prior to the date of data collection	datetime	8
3b	PatientNotification	Triglyceride	TG	Patient's latest recorded TG in the period of one year prior to the date of data collection	float	8
3b	PatientNotification	Triglyceride - Not Done	TG_ND	Lipid profile test, triglyceride not done	bit	1
3c	PatientNotification	HDL - Not Done	HDL_ND	Lipid profile test, HDL not done	bit	1
3c	PatientNotification	HDL - Date of latest result	HDL_Dtc	Date of most recent HDL reading in the period of one year prior to the date of data collection	datetime	8
3c	PatientNotification	HDL	HDL	Patient's latest recorded HDL in the period of one year prior to the date of data collection (mmol/L)	float	8
3d	PatientNotification	LDL	LDL	Patient's latest recorded LDL in the period of one year prior to the date of data collection (mmol/L)	float	8
3d	PatientNotification	LDL - Not Done	LDL_ND	Lipid profile test, LDL not done	bit	1
3d	PatientNotification	LDL - Date of latest result	LDL_Dtc	Date of most recent LDL reading in the period of one year prior to the date of data collection	datetime	8
4a	PatientNotification	Serum Creatinine	Crea	Patient's latest recorded creatinine in the period of one year prior to the date of data collection ($\mu\text{mol/l}$)	float	8
4a	PatientNotification	Serum Creatinine - Not Done	Crea_ND	Renal profile test, serum creatinine not done	bit	1
4a	PatientNotification	Serum creatinine - Date of latest result	Crea_Dtc	Date of most recent creatinine (regardless of total cholesterol or its fractions) reading in the period of one year prior to the date of data collection	datetime	8

An Audit of Diabetes Control And Management (ADCM)

4b	PatientNotification	Urine Microalbumin - Date of latest result	UrineMicroAlbu min_Dtc	Date of most recent urine microalbumin results in the period of one year prior to the date of data collection	datetime	8		
4b	PatientNotification	Urine Microalbumin	UrineMicroAlbu min	Patient's latest recorded urine albumin results in the period of one year prior to the date of data collection	int	4	zLookup_NegPosN D	1:Negative; 2:Positive; 3:Not Done; 9999:Missing
4c	PatientNotification	Urine Protein	UrineProtein	Patient's latest recorded urine protein dipstick results in the period of one year prior to the date of data collection	int	4	zLookup_NegPosN D	1:Negative; 2:Positive; 3:Not Done; 9999:Missing
4c	PatientNotification	Urine Protein - Date of latest result	UrineProtein_D tc	Date of most recent urine protein results in the period of one year prior to the date of data collection	datetime	8		
5	PatientNotification	Fundus examination	Fundus	Patient's latest recorded fundus examination results in the period of one year prior to the date of data collection; regardless of method of examination	int	4	zLookup_NormAb ND	1:Normal 2:Abnormal 3:Not Done 9999:Missing
5	PatientNotification	Fundus examination - Date complications diagnosed	Fundus_Dtc	Date of most recent fundus examination results in the period of one year prior to the date of data collection	datetime	8		
6	PatientNotification	Foot examination	Foot	Documentation of visual examination of the foot. Record as 'Abnormal' if any of the below is documented (current or history of) in the period of one year prior to the date of data collection. Foot deformity: Claw toes, Pes cavus, Hallux valgus / rigidus, Hammer toe, Charcot foot, Nail deformity. Foot lesions: Ulcer, Fissures, Infections, Interdigital macerations, Corns, Calluses, Nail dystrophy	int	4	zLookup_NormAb ND	1:Normal 2:Abnormal 3:Not Done 9999:Missing
6	PatientNotification	Foot examination - Date complications diagnosed	Foot_Dtc	Date of most recent foot examination in the period of one year prior to the date of data collection	datetime	8		

An Audit of Diabetes Control And Management (ADCM)

7	PatientNotification	Electrocardiography	ECG	Patient's latest recorded electrocardiography results in the period of one year prior to the date of data collection; regardless of method of examination	int	4	zLookup_NormAbND	1:Normal 2:Abnormal 3:Not Done 9999:Missing
7	PatientNotification	Electrocardiography - Date of latest result	ECG_Dtc	Date of most recent electrocardiography in the period of one year prior to the date of data collection	datetime	8		
8	PatientNotification	Screening for Erectile Dysfunction (ED)	ED	Patient's latest recorded screening for erectile dysfunction results in the period of one year prior to the date of data collection; regardless of method of examination	int	4	zLookup_AbsPresND	1:Absent; 2:Present; 3:Not Done; 9999:Missing
8	PatientNotification	Screening for Erectile Dysfunction (ED) - Date of latest result	ED_Dtc	Date of most recent screening for erectile dysfunction in the period of one year prior to the date of data collection	datetime	8		

Section SECTION 4:COMPLICATIONS

No	Table name	Caption	Variable Name	Definition	Data type	Data size	Lookup table	Codelist
1	PatientNotification	Retinopathy	Retino	As diagnosed by medical practitioner and recorded in the case notes	int	4	zLookup_YesNoUnknown	1:Yes 2:No 8888:Not Known 9999:Missing
1	PatientNotification	Retinopathy Presume Year	Retino_Presume Yr	if the exact date was not know for the date of Retinopathy complication was diagnosed, enter 30/06/yyyy in for the date of complication diagnosed and check the presume year check box	bit	1		
1	PatientNotification	Date Retinopathy diagnosed	Retino_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8		
2	PatientNotification	Ischaemia Heart Disease	IHD	As diagnosed by medical practitioner and recorded in the case notes	int	4	zLookup_YesNoUnknown	1:Yes 2:No 8888:Not Known 9999:Missing

An Audit of Diabetes Control And Management (ADCM)

2	PatientNotification	Date Ischaemia Heart Disease diagnosed - Date complications diagnosed	IHD_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8		
2	PatientNotification	IHD Presume Year	IHD_PresumeYr	if the exact date was not know for the date of IHD complication was diagnosed, enter 30/06/yyyy in for the date of complication diagnosed and check the presume year check box	bit	1		
3	PatientNotification	Date Cerebrovascular disease (CVD) -Stroke/ TIA Diagnosed	CVD_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8		
3	PatientNotification	CVD Presume Year	CVD_PresumeYr	if the exact date was not know for the date of CVD complication was diagnosed, enter 30/06/yyyy in for the date of complication diagnosed and check the presume year check box	bit	1		
3	PatientNotification	Cerebrovascular disease (CVD) -Stroke/ TIA	CVD	As diagnosed by medical practitioner and recorded in the case notes	int	4	zLookup_YesNoUnknown	1:Yes 2:No 8888:Not Known 9999:Missing
4	PatientNotification	Nephropathy	Nephro	As diagnosed by medical practitioner and recorded in the case notes	int	4	zLookup_YesNoUnknown	1:Yes 2:No 8888:Not Known 9999:Missing
4	PatientNotification	Nephropathy - Date complications diagnosed	Nephro_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8		

An Audit of Diabetes Control And Management (ADCM)

4	PatientNotification	Nephropathy Presume Year	Nephro_PresumeYr	if the exact date was not know for the date of Nephropathy complication was diagnosed, enter 30/06/yyyy in for the date of complication diagnosed and check the presume year check box	bit	1
5	PatientNotification	Peripheral Vascular Disease - Date complications diagnosed	PeripheralVascularDisease_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8
5	PatientNotification	Ulcer (current)	Ulcer	As diagnosed by medical practitioner and recorded in the case notes	bit	1
5	PatientNotification	Amputation - Date complications diagnosed	Amputation_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8
5	PatientNotification	Amputation	Amputation	As diagnosed by medical practitioner and recorded in the case notes	bit	1
5	PatientNotification	Ulcer (current) - Estimated / presumed year	Ulcer_Est	If exact date of complication diagnosed is not known, please enter 30/06/yyyy	bit	1
5	PatientNotification	Ulcer (current) - Date complications diagnosed	Ulcer_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8
5	PatientNotification	Amputation - Estimated / presumed year	Amputation_Est	If exact date of complication diagnosed is not known, please enter 30/06/yyyy	bit	1

An Audit of Diabetes Control And Management (ADCM)

5	PatientNotification	Foot Deformity - Estimated / presumed year	FootDeform_Est	If exact date of complication diagnosed is not known, please enter 30/06/yyyy	bit	1		
5	PatientNotification	Foot Deformity - Date complications diagnosed	FootDeform_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8		
5	PatientNotification	Peripheral Vascular Disease - Estimated / presumed year	PeripheralVascularDisease_PresumeYr	If exact date of complication diagnosed is not known, please enter 30/06/yyyy	bit	1		
5	PatientNotification	Peripheral Vascular Disease	PeripheralVascularDisease	As diagnosed by medical practitioner and recorded in the case notes	bit	1		
5	PatientNotification	Peripheral Neuropathy - Estimated / presumed year	PeripheralNeuro_PresumeYr	If exact date of complication diagnosed is not known, please enter 30/06/yyyy	bit	1		
5	PatientNotification	Peripheral Neuropathy - Date complications diagnosed	PeripheralNeuro_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8		
5	PatientNotification	Peripheral Neuropathy	PeripheralNeuro	As diagnosed by medical practitioner and recorded in the case notes.	bit	1		
5	PatientNotification	Diabetic Foot Problem	FootProb	As diagnosed by medical practitioner and recorded in the case notes	int	4	zLookup_YesNoUnknwn	1:Yes 2:No 8888:Not Known 9999:Missing
5	PatientNotification	Foot Deformity	FootDeform	As diagnosed by medical practitioner and recorded in the case notes	bit	1		

An Audit of Diabetes Control And Management (ADCM)

Section SECTION 5: CONCOMITANT CO-MORBIDITY								
No	Table name	Caption	Variable Name	Definition	Data type	Data_ size	Lookup table	Codelist
1	PatientNotification	Date of diagnosis	MHHPT_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8		
1	PatientNotification	Hypertension	MHHPT	As diagnosed by medical practitioner and recorded in the case notes or if patient is on anti-HPT	int	4	zLookup_YesNo	1:Yes 2:No 9999:Missing
2	PatientNotification	Dyslipidemia	MHDyslipid	As diagnosed by medical practitioner and recorded in the case notes or if patient is on dyslipidemia	int	4	zLookup_YesNo	1:Yes 2:No 9999:Missing
2	PatientNotification	Date of Dyslipidemia	MHDyslipid_Dtc	Indicates estimated date of clinical diagnosis by medical practitioner as recorded in the case notes. f day and month not known, fix it as 30/06 of the year of diagnosis; If only day is not known, fix is as 30th of the particular month	datetime	8		

Section SECTION 6: MANAGEMENT								
No	Table name	Caption	Variable Name	Definition	Data type	Data_ size	Lookup table	Codelist
1	PatientNotification	If others, specify	LipidLoweringOthSpecify	Specification if category for Lipid lowering agent is other	varchar	255		
1	PatientNotification	Diuretic	Diuretic	As documented in the patient's latest drug prescription	bit	1		
1	PatientNotification	Beta-Blocker	BetaBlocker	As documented in the patient's latest drug prescription	bit	1		
1	PatientNotification	Others; specify	AntiHPTOth	As documented in the patient's latest drug prescription	bit	1		
1	PatientNotification	If others, specify	AntiHPTOthSpecify	Specification if category for Anti-hypertensive is other	varchar	255		

An Audit of Diabetes Control And Management (ADCM)

I	PatientNotification	Long acting (e.g Glargine, Detemir)	LongAct	As documented in the patient's latest drug prescription (e.g Glargine, Detemir)	bit	I
I	PatientNotification	Antihypertensives, specify	AntiHPTComments	Specification if other drugs	varchar	255
